3.8.2 Agency Business

- Staff have submitted two grant proposals:
 - \$737,850 over three years from WAGE to develop responses to 2SLGBTQ+ gender-based violence for community-based organizations. Includes dedicated resources for impact and evaluation framework.
 - \$100,000 over one year from Heritage Canada to run discrete events that support community-led efforts to counter hate and misinformation and build cohesion. If successful, these funds would support the 50th anniversary forum planned for the fall.

3.8.4 Access to Justice Program Update and Legal Framework

- Staff are proposing an expansion in The 519’s Access to Justice department’s service offerings, whereby certain accredited employees of the organization would be able to provide direct legal service, including representation, to community members on a very limited basis, in specific areas of law where team members carry expertise, and in circumstances where no other suitable options for legal supports exist. There would be no reduction to existing services, only a net increase.
- Staff explained that there is currently no 2SLGBTQ+ speciality legal clinic in Toronto, representing a major gap in service. Community partners have also identified this gap and have encouraged The 519 to move towards this shift. It is broadly understood that this service is missing and any number of legal advice/representation cases would be valuable.
- Staff are currently in the process of working with the appropriate City staff/divisions to clarify parameters of the program and ensure authorities under the AOCC and City of Toronto Relationship Framework. Staff are also consulting with the City to ensure no possibility of taking on a case where there may be a conflict of interest with the City or any of its agencies (including no civil cases).
- Staff are already in compliance with Law Society Act and other regulatory parameters including insurance and liability coverage, licensing, etc.
- There would be no financial impact on making this shift now, and staff will begin exploring future funding opportunities for when existing funding from the Law Foundation of Ontario ends in 2027.
- Board members expressed enthusiasm and support for this new initiative, and raised recommendations and cautions for consideration:
 - Defining geographic parameters for accessing the service, possibly the catchment area, possibly broader.
 - Being clear about selection criteria, in Toronto context.
- The Board reflected on potential risks associated with this shift: reputational risk associated with having to prioritize/select certain cases with limited resources/capacity, the possibility of both sides of a case being 2SLGBTQ+ community members, etc.
- The Board discussed whether this proposed shift was the best way to service the need/gap, given the limited resource/capacity to take cases, and wanting to avoid the duplication of services. Staff and other Board members emphasized the need for this kind of speciality clinic, that speciality clinics are most successful when offered by multi-service organizations, and that The 519 is extremely well-positioned to take this on.
